

AMENDMENT UNDER 37 C.F.R. § 1.116  
SERIAL NO. 09/929,286  
ATTORNEY DOCKET NO. Q65836

**AMENDMENTS TO THE CLAIMS**

**This listing of claims will replace all prior versions and listings of claims in the application:**

**LISTING OF CLAIMS:**

---

1. (Currently Amended) An anti-theft system for vehicles, comprising:  
vehicle registration system having a plurality of communication channels respectively  
assigned to subscriber IDs;  
vehicle-theft reporting means notifying devices each for notifying reporting that a vehicle  
has been stolen;  
an anti-theft service center for receiving a notice from one of said vehicle-theft notifying  
devices and for sending a theft signal through to one of the communication channels  
corresponding to the subscriber ID of said one of the vehicle-theft notifying devices to said the  
stolen vehicle in response to said the reporting notice and reporting theft of said stolen vehicle to  
authorities; and  
an anti-theft apparatus, mounted on said vehicle, for inhibiting an engine of said vehicle  
from restarting in response to reception of said theft signal.

2. (Original) The anti-theft system for vehicles according to claim 1, wherein said anti-theft apparatus inhibits said engine of said vehicle from restarting in response to reception of said theft signal only when said vehicle is stopped.

AMENDMENT UNDER 37 C.F.R. § 1.116  
SERIAL NO. 09/929,286  
ATTORNEY DOCKET NO. Q65836

3. (Original) The anti-theft system for vehicles according to claim 1, wherein said anti-theft apparatus blinks lights of said vehicle and continually sounds a horn of said vehicle in response to reception of said theft signal when said vehicle is in motion.

2 4. (Previously Presented) The anti-theft system for vehicles according to claim 1, wherein said anti-theft apparatus gives an audio-and-visual warning to a driver of said vehicle to stop said vehicle in response to reception of said theft signal when said vehicle is moving.

Pl  
cont.  
5. (Original) The anti-theft system according to claim 1, wherein said anti-theft apparatus includes present-location detecting means for detecting a present-location of said vehicle and generating vehicle positional information, and sends vehicle positional information to said anti-theft service center in response to reception of said theft signal.

6. (Original) The anti-theft system according to claim 1, wherein said vehicle-theft reporting means is a cellular phone which generates a theft report signal and sends said theft report signal to said anti-theft service center in response to an input of a theft occurrence code.

7-16 (Withdrawn).

17. (Currently Amended) A system, comprising:

a center, remote from a vehicle, that receives a notice from one of vehicle-theft notifying devices reporting signal and sends an alert signal to said vehicle in response to the notice said
